

Annual US Avalanche Fatalities by Activity Category

2010/11 US Avalanche Fatalities by Activity Category

***25 total to June 1, 2011**

[Data courtesy NWAC, CAIC and WAN]

Data courtesy [NWAC](#), [Colorado Avalanche Information Center](#) and [Avalanche.org](#)

*The US avalanche fatality toll to date does not include 11 avalanche fatalities in Canada (including 6 snowmobilers in BC, 2 back country skiers in Alberta and 3 back country skiers in BC).

[Note that the 2009/10 fatality total of 36 tied the dubious modern day (post 1950) record for avalanche related deaths in the US initially set in 2007/08. This total included one missing and presumed dead in a June 5, 2010 avalanche on Mt Rainier, WA, but did not include 12 avalanche fatalities in Canada reported through June 20, 2010 (6 snowmobiler, 3 heli-skiers, and 2 BC skiers in BC, and 1 BC skier in the Yukon). See www.avalanche.ca for details.]
