Data courtesy [NWAC](#), [Colorado Avalanche Information Center](#) and [Avalanche.org](#)

\*The 2009/10 fatality total ties the dubious modern day (post 1950) record for avalanche related deaths in the US set in 2007/08. This total includes one missing and presumed dead in a June 5, 2010 avalanche on Mt Rainier, WA. It does not include 12 avalanche fatalities in Canada reported through June 20, 2010 (6 snowmobiler, 3 heli-skiers, and 2 BC skiers in BC, and 1 BC skier in the Yukon). See [www.avalanche.ca](http://www.avalanche.ca) for details.
